The repertoire lists which follow should be used as a guide when choosing audition selections. There are no required selections. However, the following lists illustrate the genres, styles, and difficulty levels of music that is typically expected of a student pursuing a music degree. **Students wishing to pursue the Instrumental or Vocal Performance degrees are strongly encouraged to adhere closely to the repertoire suggestions in this list.** Students pursuing the Sound Engineering, Music Business and Music Composition degrees may select repertoire that is slightly less demanding, but should select compositions that are similar to the selections on this list.

If you have questions about this list or whether or not a specific piece is acceptable audition repertoire, please contact the Music Department at 812.941.2655 or by e-mail at semusic@ius.edu.

AUDITION REQUIREMENTS FOR VARIOUS DEGREE CONCENTRATIONS

All students applying for admission to the Music Department must complete a performance audition regardless of the student's intended degree concentration. However, the performance standards and requirements do vary depending on which concentration the student intends to pursue. Generally speaking, compositions that appear on state Solo & Ensemble contest lists are considered acceptable examples of appropriate audition repertoire.

Vocal Performance

Students should prepare two songs of contrasting style, one preferably in a foreign language. At least one of the songs should be memorized. A selection from musical theatre is acceptable. Voice auditions must be accompanied. Following the presentation of solo material, the candidate will be asked to demonstrate basic pitch and rhythmic sight-reading ability.

Instrumental Performance – Keyboard

Candidates for the B.A. in Piano or Organ Performance should be prepared to play – either from score or memory – no less than two pieces. They should be varied, both as to period and style. The candidate should also be prepared to play major and minor scales and arpeggios. Some basic pitch matching exercises will be asked of the candidate.

Instrumental Performance – Non-Keyboard

Instrumentalists should prepare two shorter selections in contrasting styles from the standard literature (or one longer work) that best display musical accomplishments. Major scales and chromatic scales may also be requested. Instrumentalists are not required to perform with accompaniment. Percussionists should prepare a snare drum solo and basic rudiments, and either a timpani or mallet instrument solo. Some basic pitch matching exercises will be asked of the candidate.

Music Composition

Acceptance into the Music Composition program (both Composition for the Concert Stage and Composition for Film & Media) is based on both an interview/portfolio review and an audition. **Candidates should perform one representative work on their primary instrument or voice** and also present a portfolio of at least two scores (with recordings, if possible) of their original compositions. Scores should demonstrate the candidate's creativity and ability to realize his or her ideas with accuracy and in accordance to conventional notational practices. Candidates should be able to discuss their influences and music interests as they relate to the field of composition. Some basic pitch matching exercises will be asked of the candidate.

Music Industry: Sound Engineering

Acceptance into the Music Industry: Sound Engineering program is based both on an interview and a demonstration of the candidate's fluency on a particular instrument. Because this concentration is not a performance-oriented degree, the level of performance does not need to reflect the same stringent standards. However, since it is a music degree, *we require that candidates have some facility on a musical instrument or voice and can demonstrate basic literacy in conventional music notation.* Candidates should be prepared to discuss reasons why they wish to pursue the technology concentration. Support materials (CD recordings, creative work, past editing projects, etc.) are helpful, but not necessary for admittance into the program. Some basic pitch matching exercises will be asked of the candidate.

Music Industry: Music Business

Acceptance into the Music Business program consists of both an interview and an audition on the candidate's primary instrument or voice. Because the Music Business concentration is not a performance-oriented degree, the level of performance does not need to reflect the same stringent standards. However, since it is a music degree, *we require that candidates have some facility on a musical instrument or voice and can demonstrate basic literacy in conventional music notation.* Candidates should be prepared to discuss reasons why they wish to pursue the Music Business concentration.

Taped/Recorded Auditions

Students who do not live within a 300-mile radius of Indiana University Southeast may submit a recorded audition. A DVD or video files (.avi, .wmv, .mov, .mp4, .flv) on disc is preferred, but a CD or audio files (.mp3, .wav, .flac) on disc will be accepted. Students who submit a recorded audition may only be provisionally accepted. Students deemed qualified will still be required to perform a live audition at some point prior to the start of the semester.

Accompanists

Vocal auditions must be accompanied. Accompanied instrumental auditions are preferred, but not required. You must provide your own accompanist if one is needed for your audition. If you need assistance in securing an accompanist, you can view our list of recommended accompanists available on our web site (at www.ius.edu/music/accompanists) and contact them directly. Be advised that you will need to contact an accompanist as far in advance of your audition date as possible. Also, please be aware that you will need to negotiate accompanist fees with the accompanist.
